

# Jesus Is the Life

"Even if we don't drop dead the second we sin, our sin separates us from God."

If we want to live our best life ever, we need to live it according to God's will. Sin always brings death. Even if we don't drop dead the second we sin, our sin separates us from God. And that separation is a very real kind of death, it effects us here on earth and it effects our eternity. It is only by believing in Christ that we can have eternal life and it is only through following Him that we can see and experience that eternal life here on earth. Jesus is the life.
