

Don't Be Spiritually Nearsighted

When we allow ourselves to get distracted, bad things can happen.

If you believe in Jesus, you have been cleansed from your sins and you have eternal life. What an incredible gift! We need to make sure that we remain focused and work towards adding to our faith the good qualities that God has called us to pursue. If we don't have these qualities, it's like we are so spiritually nearsighted that we are blind. When we allow ourselves to get distracted, bad things can happen. But staying focused on Christ is incredibly rewarding both here and now, and in heaven, too!

Family Time Questions
